

Our Company Profile

Spidron Weco BV is a Well Engineering consultancy firm, situated in Leeuwarden, in the North of the Netherlands. Our main business is to support operators in the geothermal, oil & gas- and salt mining industry.

We support our clients during the process of design, permit application, project planning, contracting and execution of well activities ranging from conceptual design to final well abandonment.

We see it as our mission to efficiently contribute to the present energy transition by providing thorough preparation, solid engineering and good advice and then executing it right by supplying people with broad experience. Our ambition is to become a medium sized company, with clients all over Europe. Our portfolio contains geothermal, oil & gas- and salt mining projects.

We wish to hire a fulltime

Senior Well Engineer

with at least ten years of experience in the geothermal, oil & gas- or salt mining industry.

Your tasks

- Designing wells, from concept to detailed design;
- Writing well and intervention programs;
- Writing offset well reviews;
- Making cost estimates;
- Making and participating in risk analyses;
- Back-office support or supervision on location during operations;
- Supporting tender procedures.

Our requirements

As our Well Engineer you have at least a bachelor's degree in Mining, Mechanical Engineering or another relevant education. Of the ten years' experience in the industry as a Well Engineer, you have been working in the field for at least five years, at least two years as a supervisor. Your experience should include a significant portion of drilling experience. Your English skills are at a high level, both verbal and written. Knowledge of the Dutch language is preferred, French and German skills are a plus. You have a strong technical affinity and excellent communication and interpersonal skills. You are self-motivated and results oriented. You should have a category B driving license.

Our offer

We offer you a challenging position with a variety of projects and tasks in an inspiring environment. We facilitate achieving and maintaining the necessary job certification, such as IWCF level 4 and other necessary offshore diplomas and required medical tests etc. We provide personal development by offering further education that meets both your and our needs. We offer you a competitive salary in a short-term contract, with the aim to come to a long-term contract. The work will be predominantly from our Leeuwarden office, so you should be willing to relocate if required.

Application

If you require further information, please check our website: www.spidron-weco.com, or send an email to info@spidron-weco.com. If you are interested in this job, please send your application with extensive CV before August 31st, 2024, to Mr. R. te Gussinklo Ohmann at info@spidron-weco.com.
